

# Gaming Conversation Starters

Tell me about your favorite game to play.

How do you feel when you're playing games?

If you could create the perfect game, what would it be like?

What kinds of games do you like best? Why?

Who do you like to game with? Why?

How can you tell that you've spent too much time gaming?

What do people talk about when you're gaming with them? How does that make you feel?

What things do you like doing when you're not gaming?

How do you decide what game you want to play?
