

annual report 2024

Our mission is the relentless pursuit of optimal health for every child within our reach. We work toward that goal every day, with every child who comes to see us — whether it's for a primary care visit, a specialist visit or a stay in our newborn intensive care unit.

inpatient visits

Beds.....	181
Admissions.....	8,061
Observations.....	5,243
Patient days.....	37,051
Average stay.....	4.60
Average daily census.....	119.7

mental health – overcoming the crisis of this generation

To address the continued mental health crisis, the hospital expanded several services:

- Outpatient therapy expanded to Beavercreek and Huber Heights
- Announced a new facility in Springboro to consolidate and expand mental health services closer to home.
- Entered the final phase of construction for the Mathile Center for Mental Health and Wellness which will begin seeing patients in summer 2025.
- Synthesized community-based mental health services with the creation of the Center for Emotional Wellbeing. This includes student resiliency coordinators, community health workers and the On Our Sleeves® movement and many more under one umbrella for greater impact and alignment.

community benefit and support

Dayton Children's is proud to be one of the largest employers in the region, investing hundreds of millions of dollars back into the community through wages. Thanks to the support of our community, we're able to push boundaries in health care and help kids thrive beyond the hospital's walls.

news-making moments

partnering for primary care

We are transforming children's health in our region through innovative primary care partnerships. This year, Dayton Children's joined forces with PriMed Pediatrics, Pediatric Associates of Dayton and Wilson Health, while launching Kids Express Tipp City for quick, convenient care.

Our efforts expanded to the Greater Dayton School with a school-based clinic, improving access to primary care, OT, speech and mental health services.

west Dayton urgent care

In December 2023, Dayton Children's Hospital announced plans for an \$8 million urgent care in west Dayton. Extensive community interviews revealed this is the service parents want and need - after hours care for moderate severity illnesses and injuries.

kinship housing development

Dayton Children's developed a housing project supporting grandparents or family members who have custody of children. Announced in October 2023 and unlike any other model across the country, these homes will provide the needed space for the newly formed family, surrounded by a support network.

record year for fundraising

This year also marked a record year for fundraising for the hospital with the Women's Board raising \$1.3 million to benefit mental health at the 2024 cha|cha fundraising event and the TWIGS auxiliary raising a record \$272,341 in the Gem City Jam golf outing. All told, the *Do.More.* so all kids thrive comprehensive campaign so far has raised a whopping \$65+ million.

award-winning teamwork — here's the proof
